

# Annual Report 2021

## From the President

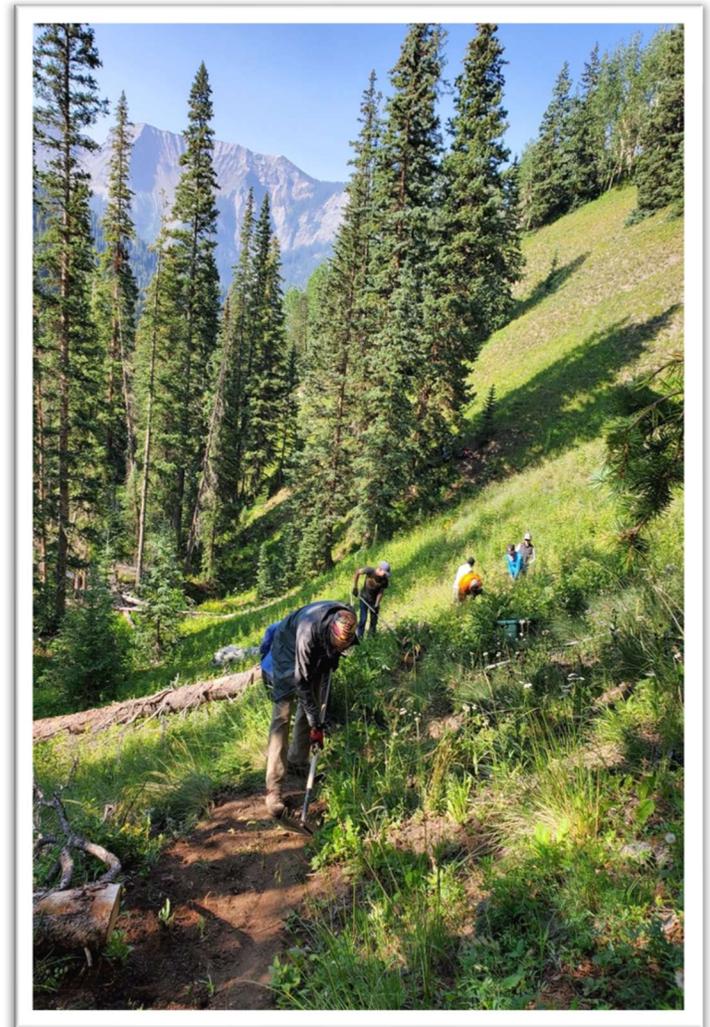

In 2021 the Ouray Trail Group had another great year of public service dedicated to maintaining and improving hiking trails in the Ouray region. Despite the lingering pandemic, we mobilized volunteers to maintain more trails and more miles of trail than previous years. We explored new and better ways to collaborate with the U.S. Forest Service and City of Ouray to improve trails near Ouray and far into the National Forest backcountry. We forged new relationships with like-minded statewide organizations including the Colorado Mountain Club and Volunteers for Outdoor Colorado for data sharing, training, and project work on local trails. We embarked on another significant improvement to the Perimeter Trail to add a superbly scenic 0.3-mile section and improve trailhead parking and signage, working with the City of Ouray and U.S. Forest Service and aided by a generous grant from the Ouray County Community Fund.

All of this was made possible by our hard-working board of directors and project managers, nearly 100 volunteers from Ouray County and beyond, and the generous financial support of donors including the Ouray Chamber Resort Association and OTG members and supporters who contribute. The support of the local community and donors from near and far is astounding, and truly makes our stewardship work possible.

2022 will likely bring another year of increased tourism and pressure on our trails and public lands. OTG is committed to meet the traditional challenge of maintaining and improving public trails, and the new challenge of helping public land managers cope with burgeoning public use. We can all help by encouraging trail users to respect other users, avoid leaving trash or carving graffiti on trees or rocks, and tread lightly to reduce impacts. I hope you'll join us in this important work.

Happy Trails!

Steve Boyle

## Overview

The Ouray Trail Group (OTG) is an all-volunteer nonprofit group founded in 1986 to promote the restoration, maintenance, and safe use of hiking trails in the Ouray area. This report describes OTG's work in 2021 to restore and maintain trails, provide public information and outreach, administer trail registers and special projects, and partner with government and other groups to meet our mission.

In addition to activities related to maintaining trails, OTG also accomplished:

- Funding through cash donations, small grants, and sales of OTG-produced trail maps, guidebooks, t-shirts, and stickers.
- Equipment acquisition and repair.
- Public outreach and publicity including articles in local newspapers, and continued operation of the OTG website at [www.ouraytrails.org](http://www.ouraytrails.org), the OTG Facebook page, and a monthly email newsletter for members and collaborators.
- Coordination with other groups including the City of Ouray, Ouray County, Trust for Land Restoration, Colorado Mountain Club, Volunteers for Outdoor Colorado, the Silverton Hardrock 100 race, and the Ouray 50/100 race.

## Trail Work

### *Because Hiking Trails Matter to Our Community*

OTG works to maintain 84 trails in Ouray and western Gunnison and Hinsdale counties. Most of the trails are on federal public lands within the Uncompahgre National Forest, and OTG works under a Volunteer Service Agreement and Annual Operating Plan with the U.S. Forest Service (FS) to maintain trails and signage following Forest Service standards and guidance. OTG also works on trails on land owned by the City of Ouray, Ouray County, and a few private land parcels with public rights of way.

### *Trail Maintenance*

Led by OTG Trail Work Coordinators for Front Country and Backcountry, OTG completed maintenance work on 39 trails covering 98 miles of trail (see complete Maintenance Log in Appendix 1). Essentially all Front Country trails were maintained (trails near Ouray, in the US Hwy 550 corridor, or southwest of Ridgway accessed from Ouray County Roads 5 and 7). The exception was Blue Lakes Trail, which was maintained this year by USFS and contractors.

In 2021 OTG continued an effort begun in 2019 to increase our work on wilderness and other more remote trails. OTG led trail work trips on the following Backcountry trails:

#### Uncompahgre Wilderness

- Okeson, Baldy from Okeson to Difficulty, and Cutler Creek Trails, 2-day trip with packhorse support from Justin Mitchell of Action Adventures.
- Cow Creek Trail, 2-day trip with packhorse support from Roy Jackson and staff from Cow Creek Outfitters.
- Middle Fork and Porphyry Basin Trails, 4-day trip with packhorse support from the FS Ouray Ranger District.
- Dexter Creek and Difficulty Creek Trails, 2-day trip.
- Stealey Mountain South Trail, 2-day trip with packhorse support from Roy Jackson and staff from Cow Creek Outfitters.

#### Non-Wilderness Backcountry

- Courthouse and Courthouse Mountain Trails, 2-day trip.
- Stealey Mountain North Trail.

### 2021 Trail Work: By the Numbers

<b>Number of trails worked:</b>	<b>39</b>
<b>Miles of trail maintained:</b>	<b>98</b>
<b>Down trees removed:</b>	<b>&gt;527</b>
<b>Drainage structures constructed:</b>	<b>&gt;200</b>
<b>Trail Registers maintained:</b>	<b>41</b>
<b>Maps Sold:</b>	<b>&gt;1185</b>
<b>Volunteers Trained:</b>	<b>44</b>

Normally our first maintenance priority is opening trails in late spring and early summer by clearing down trees and cutting back brush. OTG cleared at least 527 trees from all trails in 2021 and did extensive limb and brush removal in many areas.

Trail work also included clearing rock and soil debris, rebenching tread into hillsides to reestablish tread width and outslope, and removing berms from outside edges. We improved drainage and corrected erosion problems by cleaning waterbars and other drains and constructing new drains. Following direction in the U.S. Forest Service *Trail Construction and Maintenance Notebook* and VOC training materials, OTG is increasingly installing drainage knicks and grade dips where feasible instead of waterbars to reduce future maintenance and provide more sustainable drainage.

### ***Special Projects: The Perimeter Trail Extension***

When the section of new trail was constructed in September 2020 connecting the Old Twin Peaks Trail to Oak Street, the Perimeter Trail was considered essentially complete. A hoped-for final section on the mountainside west of Ouray and parallel to Oak Street was considered unworkable, because for several years OTG had not been able to secure a right of way across 2 privately owned mining claims. In summer 2021 one of the landowners agreed to sell the 8-acre Brown Lode property to OTG, and the adjacent landowner agreed to a boundary adjustment. In October 2021 OTG purchased the Brown Lode and is working on the boundary adjustment. The two actions will allow the Perimeter Trail to be extended 0.3 miles to reach Oak Street directly across from the footbridge to Fellin Park, moving the Perimeter Trail off Oak Street and allowing the development of a trailhead with public parking on Oak Street on City property. The extension would cross National Forest in two sections of less than 100 feet each. OTG continues to work with the FS and the City to develop this trail extension and truly complete the Perimeter Trail.

## Our Volunteers

### *Getting the Projects Done*

OTG volunteers recorded 2,654 hours working on trail projects, up from 2516 hours in 2020, and at least 1,000 additional hours on OTG administration, meetings, fundraising, map and product development and sales, trail reconnaissance, and other tasks that support OTG's mission. Volunteer trail workers in 2021 included men and women of all ages, from high school students to retirees, and experienced hands to first-timers. OTG's work would not be possible without the commitment, effort, and good cheer of our wonderful volunteers. Thank you all!

Volunteer age for work on trails 2021	# of Volunteers
<20 Years	19
20-54 Years	28
>54 Years	31
Total	78

## Training and Certifications

### *Improving Skills, Promoting Safety*

OTG organized or attended the following trainings in FY 2021. Chainsaw and crosscut saw trainings were organized and conducted by OTG under the FS National Saw Program. OTG volunteer and FS-certified saw instructor Tim Foulkes worked with the Forest Service to develop the course content, then planned and conducted the saw trainings.

#### First Aid/CPR

April 28. Provided free of charge by EMT and Ouray Mountain Rescue Team President Ruth Stewart, ten OTG volunteers were certified.

#### Chainsaw Certification

May 8-9. Seven students first-time certified as A or B level for downed tree bucking, three additional students re-certified as B bucking.

#### Crosscut Saw Certification

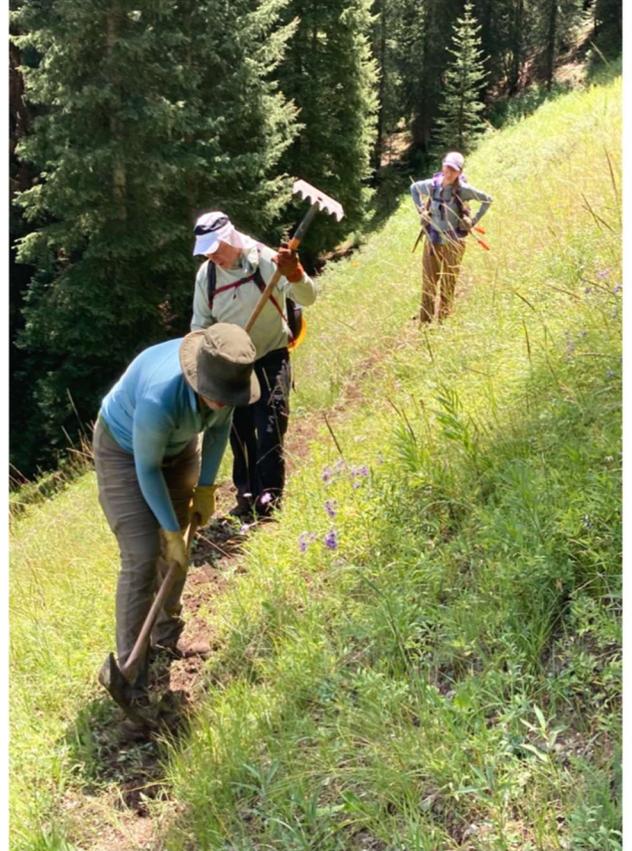

May 15-16. Seven students first-time certified as A or B bucking, two additional students re-certified as B bucking.

#### Trail Crew Leadership

OTG collaborated with Volunteers for Outdoor Colorado (VOC) to provide OTG's first-ever Trail Crew Leadership class and certification for volunteers. The class was taught by Steve Boyle and John Hulburd, both trained as Trail Crew Leaders by VOC and Trails 2000, respectively. Students completed VOC online modules in Trail Basics and Crew Leadership, then participated in a field training on June 5. Instructors reviewed online concepts, then the class worked on trail projects on the Sutton-Neosho Trail, allowing students to role-play as crew leaders and design and lead maintenance work. Seven OTG volunteers completed the course as well as one new trail crew leader based in Silverton with the San Juan Mountains Association.

#### VOC Trail Skills

June 19-20. The FS organized and funded this training, led by VOC trainers. Ten OTG volunteers joined two US Forest Service recreation staff and worked on drainage and rock work skills on the Upper Cascade Trail in the Ouray Amphitheater and on the Perimeter Trail near Cascade Falls.

## Trail Registers

### *Tracking Trail Use*

OTG volunteers maintained 41 trail registers in FY 2021. This year we resumed normal operations after largely halting register box management in 2020 due to the COVID-19 pandemic. At least 6 OTG volunteers kept register boxes stocked with sheets all year, periodically collected sheets from busier boxes, and collected all sheets in early October 2021. OTG volunteers tallied the sign-in data and prepared the summary of monthly totals for the FS Fiscal Year (FY) 2021 shown in Appendix 2. OTG made repairs to several trail register boxes in 2021, including removing stickers and spray-painting box lids to remove graffiti.

Trail user sign-ins in FY 2021 totaled 64,736, more than double the 2020 total when boxes were mostly not serviced because of the pandemic, and up 16% from 2019 totals which were less than normal because heavy spring snows kept many trails impassable until mid or late summer. The 2021 total is up 11% from 2018, the most recent “normal” year. The Perimeter Trail continues to be the most popular trail by far, followed by the Blue Lakes Trail from the County Rd. 7 trailhead and the Bear Creek National Recreation Trail.

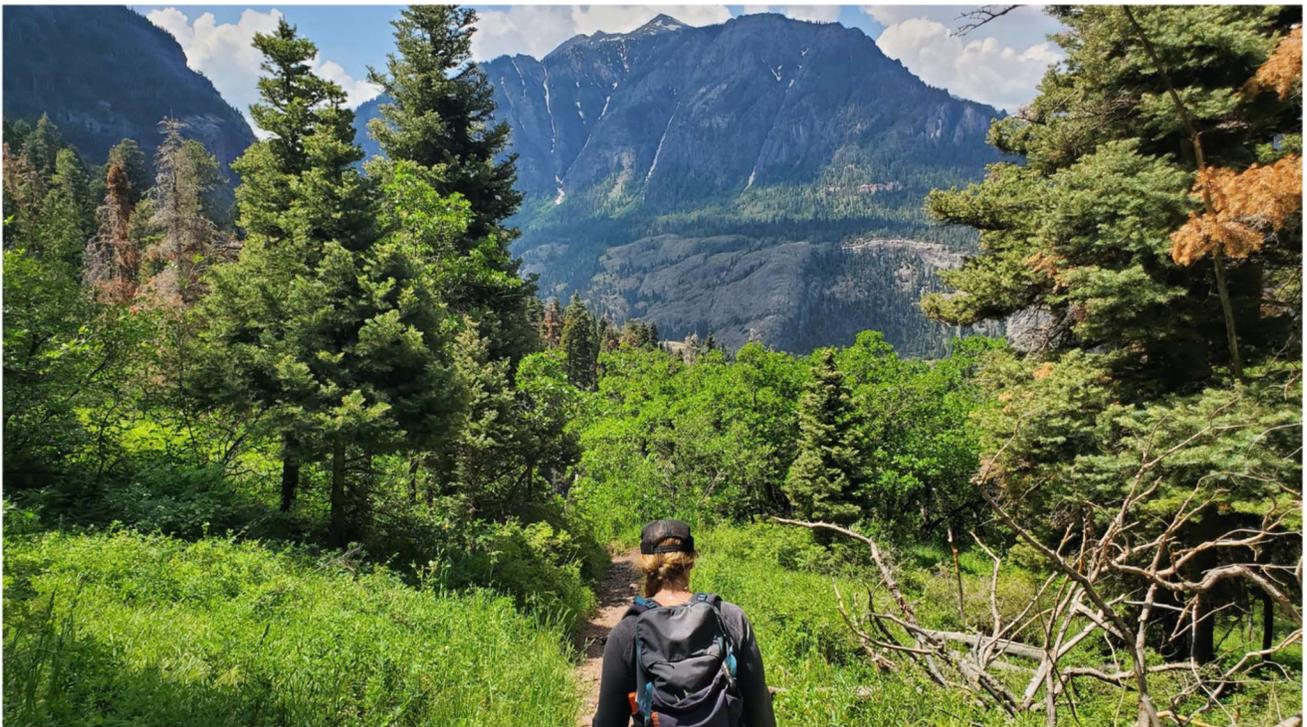

## Agreements and Planning

### *Partnering with Land Managers*

We operate under the US Forest Service March 2020 Memorandum of Understanding (MOU), valid through March 2025. In March 2021 a new Volunteer Service Agreement (VSA) and Annual Work Plan were signed by the FS and OTG. During the year OTG leadership and FS staff met or spoke several times to discuss agreements and special projects. During the year OTG leadership and FS staff met or spoke many times to discuss agreements and special projects, and to coordinate trail crews and secure FS assistance on trail work and training.

In 2021 OTG joined the Ouray Recreation and Conservation Alliance (ORCA). ORCA is a group of public and private partners collaborating to connect visitors to the outdoors while promoting habitat restoration, conservation, and infrastructure to reduce human impacts on our natural resources. You can read more at <https://ouraycountyco.gov/413/Ouray-Recreation-Conservation-Alliance>.

## Education and Outreach

### *Informing Trail Users, Building Support*

OTG volunteers have developed and continue to maintain the OTG website at [www.ouraytrails.org](http://www.ouraytrails.org) and the Ouray Trail Group Facebook page. OTG also publishes an email newsletter for our nearly 280 members, with information about OTG happenings and trailwork news. In 2021 we submitted periodic press releases about our successful construction projects on the Perimeter Trail to local newspapers. Our annual end-of-season Volunteer Picnic was well attended by members and volunteers. Last year we began a partnership with the Colorado Mountain Club to access data from their *Recreation Impact Monitoring System* (RIMS), which enables trail users to use a mobile device to record trail maintenance issues. We worked with CMC and the FS to develop a shared data interface that allows OTG to view and utilize trail data to help direct and guide trail maintenance work.

In 2021 OTG continued to monitor and comment on land management projects that could affect the region's trails. We participated as an invited stakeholder in a state-funded effort by the Colorado Plateau Mountain Bike Trail Association to create a Ouray County Regional Trails Plan, aimed at building new trails for bikes, hikers, and equestrians. We also reviewed and commented to the FS on the Grand Mesa Uncompahgre and Gunnison (GMUG) National Forest Plan Revision, which may affect hiking trails.

## Assets and Fundraising

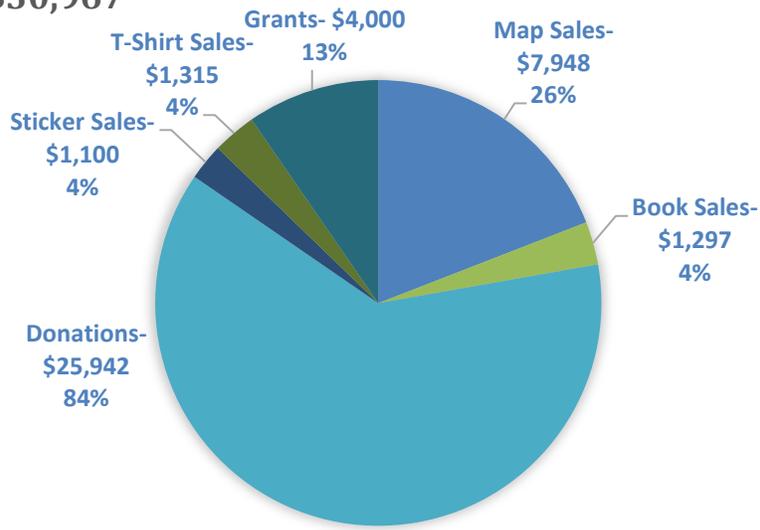

### *Resources to Meet the Mission*

OTG raises funds through cash donations, small grants, and sales of OTG-produced trail maps, a guidebook, t-shirts, and stickers. In 2020, the OTG book and map were updated, contributing to the increased sales we've seen in 2021 (see income chart). The popular book and map are available in local retail stores and online at [www.ouraytrails.org](http://www.ouraytrails.org). The digital version of OTG's Hiking Trails of Ouray County and the Uncompahgre Wilderness map and Ouray Perimeter Trail map are also available through the Avenza Maps app.

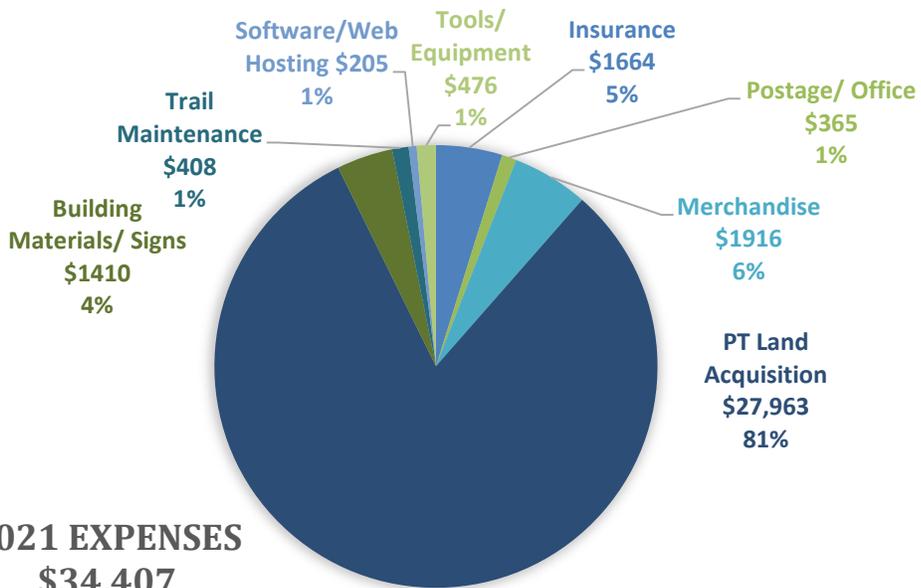

OTG received cash donations from members, supporters, local foundation small grants, the donation box in Ouray's Cascade Park, and from donations made through Facebook and our website. In 2021 the Ouray Chamber Resort Association made OTG one of the charitable recipients of proceeds from the Ouray Jeep Raffle and generously contributed \$5000 to OTG. OTG was also granted \$4000 from the Ouray County Community Fund to be used on the Perimeter Trail Extension and Trailhead Development Project. We have received donations of equipment and supplies from supporters and the Forest Service and in-kind help on projects from area professionals in engineering, metal fabrication, government relations, natural resources management, and other fields. OTG once again expresses our sincere gratitude to everyone who supported our work in 2021. As you can see in the Income Chart below, 84% of our funding comes from generous donors, like you. Thank you!

**2021 INCOME**  
**\$30,967**

**2021 EXPENSES**  
**\$34,407**

**Appendix 1. Trails worked on by the Ouray Trail Group in 2021**

Trail Name	FS #	Trail Maintenance	# Trees Cleared	Trail Miles Worked
Alpine Mine	152	May 29 Cleared all down trees, some brushing, repaired tread and improved drainage.	7	1.2
Baldy	216	June 26 On 2-day horse-supported trip, worked trail from Okeson Tr Jct. to Cutler Creek Tr Jct., cleared down trees, major brushing.	18	2.1
Baldy Peak	216.1A			
Bear Creek (above NRT)	241.1A			
Bear Creek NRT	241	July 10 In cooperation with Hardrock 100 volunteers, cleared trees and repaired tread on entire trail.	3	4.2
Bear Creek S. Fork	242	July 10 In cooperation with Hardrock 100 volunteers, cleared trees and repaired tread on trail about 1 mile above NRT section.	3	1.0
Beaver-Belfast				
Blaine Basin	203	June 7 Clear down trees, clean debris and clear brush.	12	1.1
Blue Lakes CR 5 to Pass)	201			
Blue Lakes (Yankee Boy to Pass)201	201			
Cascade/Portland Tie	213.1B	May 13 Clear all down trees, improve tread on parts (more needed)-remove slough and berms, build grade dips.	3	0.5
Colorado Boy	143			
Corbett	209	May 30 From south jct. with Dallas Tr up about 1 mile, cleared all down trees, did extensive brushing, more is needed. July 6 Entire trail cleared of down trees.	9	2.7
Corbett Canyon	256	Jun 8 Packed out abandoned equipment and trash from camp 0.1 miles south of jct. with Corbett Trail.		0.1
Courthouse	218	Sep 21-22 On 2-day outing cleared all down trees from West fork Rd. TH to just east of jct. with Stealey Mountain south Tr. Also repaired and constructed drain structures.	24	2.4
Courthouse Mountain	144	Sep 21-22 On 2-day outing repaired tread including braided areas and steep grades by closing extraneous braids, built and repaired drain structures.		1.0

Trail Name	FS #	Trail Maintenance	# Trees Cleared	Trail Miles Worked
Cow Creek	220	July 10-11 With horse pack support from Cow Creek Outfitters, cleared down trees and brush and cleaned or built 123 drain structures from TH up about 3.8 miles.	64	3.8
Coxcomb	132			
Cutler Creek	217	June 27 On 2-day horse-supported trip, cleared all down trees; in upper 2 miles dug out slough and re-benched tread on total of about 1/2 mile, and major brushing.	1	4.6
Dallas (CR 5 to CR 7)	200	June 7 Clear brush, repair broken log bridge over Dallas Creek.		2.3
Dallas (CR 17 to CR 5)	200	May 23, 30 Cleared all down trees from CR 17 TH to upper jct with Corbett Trail. July 6 Cleared down trees from CR 7 TH to upper Jct. with Corbett Tr.	17	2.5
Dallas-Corbett Shortcut	209.1A	July 6 Cleared entire trail of down trees.	15	0.6
Dexter Creek	205	June 30 With horse support, cleared all down trees. Aug. 7-8 On 2-day backpack work trip, lopped limbs and saplings from wilderness boundary up to 3.2 miles from trailhead. From about 2.6 to 3.2 miles from trailhead, rebenched tread and cleared slough where it had narrowed and filled in on cross slopes, worked on several sections totaling about 0.4 miles.	27	4.0
Difficulty Creek	214	Aug. 7 On 2-day backpack work trip, from jct. with Dexter Creek Trail south 1 mile, cleared all down trees.	19	1.0
East Fork (Cimarron)	228			
Full Moon	260	July 1 Clear all down trees.	15	2.8
Gray Copper Gulch	148	June 14 Worked all of trail, cleared down trees, cut back brush, major tread repair in wet areas and stream crossings.	14	2.2
Hayden	210	Aug. 5 From CR 361 trailhead to top of Hayden Mtn. ridge, cleared all down trees, widened cuts on previously bucked down trees, extensive lopping of limbs and saplings to clear corridor, and repaired tread where slough and loose rocks had fallen in.	15	2.5
Horsethief (CR 14-B. of Heaven)	215	June 21 Worked from Trailhead to Bridge of Heaven. Cleared trees, brushed, minor tread repair.	12	4.2
Horsethief (B. Heaven-Engineer)	215			
Ice Park	196			

Trail Name	FS #	Trail Maintenance	# Trees Cleared	Trail Miles Worked
Left Fork Cutler Creek	235			
Lower Cascade	239	Apr 23 From Cascade Falls to Amphitheater Rd, clear all down trees, repair tread. Aug 26 Cleared 3 down trees.	8	0.4
Matterhorn	135			
Mears	153			
Middle Canyon	136			
Middle Fork (Cimarron)	227	July 21-24 4-day trip with FS pack horse support. Cleared all down trees, made and replaced sign and post at top of Middle Fork-East Fork pass. Repaired 4 eroded gully systems on north and south approaches to the pass by rebuilding trail adjacent to gullies, restoring gullies with logs, branches, sod, and duff.	8	5.5
Mt. Sneffels	204			
Na-Gach	120			
Oak Creek	207	July 29 On entire trail, cleared down trees.	24	6.0
Okeson	137	June 26 On 2-day horse-supported trip, worked entire trail, cleared down trees, major brushing.	3	1.9
Old Horsethief		Jun 3 Clear all down trees, extensive tread repair and cleaning from TH up through blowout about 1.2 miles up to near first road crossing.	12	2.7
Old Twin Peaks	198	Apr 29 Clear all down trees, improve tread on parts (more needed)-remove slough and berms, reestablish outslope.	8	1.0
Perimeter	156	Apr 23, May 3, 6, 20 Clear all down trees, repair tread. Rebuild railing in Box Canon Park. June 20 As part of VOC training class, built rock steps near Cascade Falls. July 2 Clear large down tree near Oak Creek bridge. July 22 Rebuild wood steps at Oak St. trailhead. Aug 10 Cut back brush from Baby Bathtubs TH to Portland Trail.	6	5.8
Porphyry Basin	243	July 24. During 4-day work trip, worked this trail from jct. with Middle Fork Trail up 1 mile to the cabin. Cleared all down trees, cleared corridor of limbs and saplings to 6-7'.	15	1.0

Trail Name	FS #	Trail Maintenance	# Trees Cleared	Trail Miles Worked
Portland	238	May 13, 17 Clear down trees, improve tread on parts (more needed)- remove slough and berms, build grade dips. Aug 10 Cut back brush from Perimeter Trail jct. up to Cascade-Portland Connector. Aug 26. Cleared 2 down trees.	13	3.0
Portland Mine	238.1A			
Richmond	250	July 1 Clear all down trees from TH to Jct. with Full Moon Trail. Oct 10 From TH to just short of jct. with Full Moon Tr, cleared all down trees, repaired tread, built 40 drain structures, mostly grade dips. Extensive brushing.	14	2.0
Shortcut (Storm Gulch-Baldy)	138			
Silvershield	199	May 27 Clear all down trees, clean or rebuild 6 existing waterbars, build 8 new rolling grade dips for better drainage. June 24 Cleared down trees fallen since May work trip, on way to work Twin Peaks Trail. July 27 Cleared 3 large down trees ~1 mile above trailhead.	22	2.3
Stealey Mountain North	219	Sep 14 With ATVs, cleared all down trees and repaired and installed drain structures on entire trail.	27	5.4
Stealey Mountain South	258	Aug 18-19 Two-day trip with pack horse support. Cut all down trees except for several large ones at the upper end near jct. with Courthouse Trail. Cut encroaching brush on lower 1.75 miles, especially aspen saplings growing thick in 2-year-old burn area. Reestablished switchbacks in a large meadow where trail had devolved to straight fall-line, rebenched 250' of trail on a steep cross slope. Built 23 drainage structures.	25	4.5
Storm Gulch	212			
Sutton-Neosho	194	May 20, 24 Clear all down trees, clean and repair tread. June 5 As part of Trail Crew leader training, clean and repair tread of first 1/2 mile above TH. Rebuild 2 switchbacks, rebuild tread through rockslide area. Aug 20 Rebuilt trail at 2 stream crossing near south end of trail, where heavy rains had blown out the drainages and obliterated the trail crossing.	12	2.2

Trail Name	FS #	Trail Maintenance	# Trees Cleared	Trail Miles Worked
Twin Peaks	208	May 27 From Oak Creek Tr to Silvershield Tr, clear all down trees. June 24, 28 From Silvershield Tr to top of Twin Peaks, cleared down trees, brushing.	19	2.1
Upper Cascade Falls	213	May 13, 17, 24 Clear all down trees. Improve tread on parts (more needed)-remove slough and berms, clean 4 existing grade dips, build 6 new grade dips, clean tread, build rock steps. June 19 As part of VOC training class, built stone retaining wall on washed out section about 1/2 mile above Campground. Aug 3 From 5th Ave. trailhead up to Portland trail jct., cleared 1 down tree, cleaned 8 drainage structures, and lopped brush. Aug 10 Cut back brush from near Amph. Campground up 1 mile; cut up and rolled off a large down tree lying along critical edge.	7	1.5
Upper East Fork (Cimarron)	142			
Weehawken	206	May 29 From TH to jct. with Alpine Mine Tr, cleared all down trees (10), did extensive brushing, made significant repairs to tread and built several drains. June 10 From Alpine Mine Tr. Jct to end of trail, clear all down trees (16), minor tread repair, much more needs done.	26	3.7
Wetterhorn Basin (Ouray RD)	226			
Wrights Lake	201.1A			
High Bridge Trail, Box Canon Park		Apr 12, 19 Repaired eroded tread, built rock steps.		0.1
<b>TOTALS</b>			<b>527</b>	<b>97.8</b>

**Appendix 2. Trail Register Sign-In Totals, Montly Summary, FY 2021**

Trail Register	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Total
Perimeter (Visitor's Center)	1250	233	74	112	81	136	388	1,279	2,219	2,289	1,844	1,354	11,259
